### **The Hunting Apes: Meat Eating and the Origins of Human**

Or, rather, the desire for meat, the eating of meat, the hunting of meat, and the sharing of meat. Based on new insights into the behavior of chimps and other great apes, our now extinct human ancestors, and existing hunting and gathering societies, Stanford shows the remarkable role that meat has played in these societies.

### **The hunting apes : meat eating and the origins of human**

Wild chimpanzees, Pan troglodytes, frequently hunt and share meat. Despite widespread interest and considerable study, continued controversy exists regarding the factors that influence chimpanzee hunting decisions and meat sharing. Three hypotheses invoke the importance of ecological, reproductive and social factors.

### **Why do chimpanzees hunt and share meat? - ScienceDirect**

Or, rather, the desire for meat, the eating of meat, the hunting of meat, and the sharing of meat. By observing group-hunts and meat sharing, an international team of researchers found that chimpanzee hunting behavior is a cooperative act that earns participants a fair share of the prey. Your ...

### **Active participation in group-hunts earns wild chimpanzees**

For anthropologists, meat eating by primates like chimpanzees ( *Pan troglodytes* ) warrants examination given the emphasis on hunting in human evolutionary history. As referential models, apes provide insight into the evolution of hominin hunting, given their phylogenetic relatedness and challenges reconstructing extinct hominin behaviour from palaeoanthropological evidence.

### **<Emphasis Type='Bold'>BOOK REVIEW: Chimpanzee and Red**

Although the fact that chimpanzee hunt and relish meat was well known, the details of hunting were poorly understood. The main mammalian prey of chimpanzees is red colobus monkeys at all sites where the two co-occur.

### **Research > Craig Stanford, PhD > USC Dana and David**

For this reason, anthropologic studies of bushmeat should include not only the details of hunting, but also the transportation of meat to the village, the market, the kitchen, and onto the table. These practices are often articulated along lines of gender and ethnicity and within cultural contexts.

### **Bushmeat Hunting, Deforestation, and Prediction of**

The hunting, trading and consumption of gorillas “ and other apes “ is almost universally illegal in all Congo Basin countries. However, poaching continues unabated due to a lack of enforcement of national and international laws, coupled with ineffective judiciary systems.
